learning sciences & human performance resource guide

As Central Florida's rapid population growth demands innovative approaches to healthcare, organizational development, cognitive sciences and human performance, The Corridor is proud to support members of the Learning Science & Human Performance industry cluster.

Across our 23-county region, these companies are significant contributors to our economy and workforce, employing over 4,000 individuals and generating over \$100 million in revenue throughout Central Florida.

This resource guide exists to support these individuals and companies by fostering collaboration, promoting funding opportunities and connecting entrepreneurs, innovators and developers with the tools they need for continued business success.

I/ITSEC

The Interservice/Industry Training, Simulation and Education Conference (I/ITSEC) is the world's largest modeling, simulation and training event. Hosted in Orlando each year, the city's rich ecosystem of modeling, simulation, and training (MS&T) companies, research institutions and military organizations serves as an ideal backdrop for this industry-leading event. For Learning Science & Human Performance cluster members, I/ITSEC offers invaluable opportunities to explore cutting-edge advancements in simulation technologies and engage with experts in the field.
